

CRAFTSMANSHIP

The centuries-old picture framing craft takes years to master. Our longevity in the business is largely due to having mastered this craft, coupling it with high standards for consistency and attention to detail for all matting and framing services.

TECHNOLOGY

Many custom mats are still cut by hand, however, we also use new technology provided by "The Wizard," a computer-controlled mat cutting system. Capable of executing intricate designs in half the time, this system transforms a basic mat into beautiful unique accents that transfigure a design from ordinary to extraordinary.

QUALITY CONTROL

Feel confident that your artwork is in good hands. Quality control is our personal responsibility, therefore all production is performed in our facility. Your artwork never leaves the premises.

When you care about quality

ELSINORE

Framing

& Fine Art Gallery

DESIGNING FOR THE FUTURE

Your art is an investment that we will protect for the future. Fine artworks such as yours are susceptible to damage by improper handling or use of substandard materials.

By proving you with the best quality materials your artwork will be both beautifully designed and properly framed.

EXPERIENCED STAFF

At our design center, you'll find not only the best selection of art and framing options, but the best trained designers. Ongoing education of our staff ensures they are knowledgeable in the latest framing techniques as well as color trends. In the 25 years we have been in the business, we have framed anything and everything one can imagine!

OUR DESIGNS

Our designers work with the style and colors of the artwork, integrating ideas from your décor and personal taste. You can see a huge variety of design options at our design center.

Consultation at your home or business enables our staff to make recommendations appropriate to your artwork

FRAMING FOR EVERY BUDGET

Quality framing doesn't have to be expensive. We only use the proper materials to preserve the life of your artwork, working with you to select framing that will fit your budget while maintaining the highest level of quality.
