

Design & Customer Service

Your artwork is valuable and important to us. We want to protect and preserve it. While a great design is essential to your enjoyment of the artwork, it's just as important to make sure that the best quality materials are used in framing your artwork.

You can trust that our staff is knowledgeable in the use of proper conservation materials from the matting and glass, to the correct mounting techniques for all types of artwork. In our design center, you'll find a superior selection of framing options, along with the best-trained design and framing staff.

With over 30 years of experience, we have framed almost anything you can imagine. Because of our experience, we can promise the highest quality in design and attention to detail for your project.

Super Value Framing

Quality picture framing doesn't have to be expensive. We have many affordable options included in our "Super Value Framing" programs.

With our "Super Value" woods, you can select from over 320 frame styles and colors, plus over 500 matting options available in stock at huge savings.

Includes

- 50% off all custom in-stock frames. (Over 320 frame choices)
- 25% off all in-stock custom matting. (Over 500 mat choices)
- No need for coupons.
- No need to wait for special promotions or sales.

FRAME IT FAST

Also included in our "Super Value" selections are the quality ready-made frames featured in our "Frame It Fast" center. If you need something quick, or if price is an issue, you can find standard-sized wood frames starting at about \$20 with hundreds of matting and customization options available.

Best of all, you don't have to settle for plastic frames and poor craftsmanship to achieve a great look on a budget. Great for D.I.Y. projects or you can have us complete your project at the gallery.

Super Value Metals

For a more contemporary look, we offer our "Super Value" metal frames in custom sizes starting at just \$25 and includes backing, glass and assembly.

Customize your "Frame It Fast" and "Super Value" metal projects with our pre-cut and in-stock custom matting. Other upgrades are available in our design center.

The picture framing profession combines design, craftsmanship and knowledge of conservation. It takes years to learn, and dedication to maintain, current industry standards. Our 30 years of experience is your assurance that we have mastered this craft.

Our insistence on using the best quality materials and techniques has set us apart from other frame shops. Accuracy and quality are achieved through the use of a computer-aided mat cutting system capable of executing intricate designs in half the time and cost of traditional hand-cut mats.

You can feel confident that your artwork is in good hands. Quality control is our personal responsibility. Therefore, all framing is done at the gallery from design to finished product.
